The Future of Work and HR among Technological Inflation

Adapting technology to meet the demands and changes in working conditions

The rise of work from home

A top-down view of a wooden desk with two laptops, a smartphone, a notebook, a mouse, a headset, and other office supplies. The desk is cluttered with various items, including a black mouse, a blue notebook, a white smartphone, a black headset, and a small orange device. The background is a light gray wall with a blue geometric pattern on the right side.

Remote work has quickly become a reality for many different industries, but that trend was already occurring before the pandemic.
